Experience

- **engomid.com**, *Full stack developer, August 2023 – Present, Tehran, Freelancer*
  Revamped the online brand presence of the "Omid Hosseinian Engineering Group," resulting in a 30% boost in the sales of their interior design department.

- **Vabimeh.ir**, *Full stack developer, July 2021 – July 2023, Tehran, Full-time*
  Developed an interactive platform, simulating operators to present insurance plans and calculate prices instantly. Currently serving over five thousand users in Iran.

- **noBorder.company**, *Backend developer, May 2020 – June 2021, Tehran, Freelancer*
  Pioneered a global payment solution based on cryptocurrencies. Leveraged NodeJS to develop an automated wallet creator for 12 cryptos.

- **PersianLegends.ir**, *Full stack developer, February 2019 – April 2020, Tehran, Full-time*
  Crafted a play-to-earn online game with over 5 thousand players. Empowered players to own their cards and coins, enabling easy trading in an open marketplace.

- **MitraRank.ir**, *Full stack developer, September 2016 – January 2019, Tehran, Full-time*
  Engineered a high-traffic advertising platform fostering interactions between advertisers, publishers, and consumers. Currently servicing over thirty thousand users.

- **Ahan Online**, *Backend developer, June 2014 – August 2016, Tehran, Full-time*
  Provided backend development and consultancy for the online marketing of a startup that attempted to engage a traditional market in a modern way of doing business.

- **Tabarzin Sanat**, *Web specialist, April 2011 - May 2014, Tehran, Full-time*
  Guided a traditional company in implementing automation systems and online processes. Achieved a remarkable 40% reduction in internal costs within two years.
